

Cameron Athey, CO

Clinic Manager, Parker CO

Cameron is an ABC-certified orthotist and Clinic Manager for Hanger Clinic in Parker, Colorado. He has more than 15 years of experience, and specializes in all pediatric orthotic interventions including TLSOs for scoliosis and cranial remolding orthoses for cranial asymmetry. Cameron also provides WalkAide for foot drop for both pediatric and adult patients.

Cameron's brother was born with spina bifida, so he had early exposure to the difference O&P care can have on an individual and their quality of life. Every day, he tries to have that type of positive impact on his patients.

When it comes to cranial remolding patients, Cameron enjoys the special energy and dynamic that they bring to the office. It is a privilege to work with young patients, and he finds literally shaping their future to be terrifically rewarding.

Outside of the clinic, Cameron spends time with his wife and two daughters, often watching his daughters' competitive softball games. He also finds time for hiking and gardening.

Education

- Post-Graduate Certificate in Orthotics, Northwestern University, 2009
- Bachelor of Science in Business, University of Arizona, 1997
