•

**McKay-Dee Neurology
Clinic in Ogden, UT**

Brett Alldredge, D.O.

Dr. Brett Alldredge is a neurologist who specializes in diagnosing and treating conditions affecting the brain, spinal cord, and nervous system. He provides comprehensive neurological care to help patients manage complex neurological disorders and improve their quality of life. As a Doctor of Osteopathy, Dr. Alldredge brings a holistic approach to patient care that considers the whole person rather than just symptoms.

Dr. Alldredge completed his medical education at A.T. Still University School of Osteopathic Medicine in Arizona and went on to complete his residency training at Ohio State University Medical Center. He is affiliated with Ogden Regional Medical Center and McKay-Dee Hospital Center, practicing primarily at the McKay-Dee Neurology Clinic in Ogden, Utah. Dr. Alldredge provides care in English and serves patients throughout the Ogden community with convenient access to his expertise in neurological medicine.
