## About Multiple Sclerosis

Multiple Sclerosis, or MS, is an autoimmune disorder that affects the central nervous system. Messages from the brain to any part of the body can be interrupted, resulting in a wide range of disabilities. Symptoms often develop in adulthood, and typically worsen over time.

## About the Multiple Sclerosis Alliance of Southern Colorado

The Multiple Sclerosis Alliance of Southern Colorado provides direct services and supports to people right here in our community who are suffering the debilitating effects of MS. We offer support groups, physical therapy, music therapy, adaptive yoga, meditative self-care, and social events, all at no cost to our clients. We also provide a monthly line-up of guest speakers who discuss everything from nutrition and treatment options to disability law. It is our mission to help our clients improve the quality of their lives and achieve greater hope, health and independence.

## About Brush Crazy

Brush Crazy is a tiny universe for creating projects on canvas, wood, ceramics or glass, by painting, sculpting, paint-pours or mosaic work. We meet every artist where they are and take pride in offering the perfect haven for creative exploration. Projects begin as low as \$13. Preview our projects at <https://brushcrazy.com/projects>.
